

UKTTD04

Contribute to the security of the Tram and Tramway environment

Overview

This standard is about contributing to the security of the Tram and Tramway environment. It includes identifying when a breach in security has occurred and understanding the effects on self, customers, the general public and the organisation. It is about ensuring that you take the required actions to confirm the security of the work environment. You will be able to take precautions to avoid risks to personal safety whilst complying with the security systems and procedures. An important aspect of this standard is to ensure that any activities carried out are in accordance with relevant legal requirements and organisational policies and procedures. It is also about understanding your own and organisational responsibilities and contributions in relation to the security of the work environment.

This standard is for those who work in the Tram and Tramway environment.

UKTTD04

Contribute to the security of the Tram and Tramway environment
